ABOUT

Tall "Orbiter" floor lamp with three adjustable arms and chromed spheric lamp shades by American designer Robert Sonneman. Completed with a master switch cord, each lamp shade can be switched separately.

Robert Sonneman (b. 1943) developed an early interest in art, studying at Rhodes Preparatory School and the Art Students League in New York. After serving in the Navy, he worked at a lighting store, where he became intrigued by modernism and European minimalism. Gaining valuable experience, he opened his own factory at 23. The Orbiter Lamp model was designed by Robert Sonneman in 1967, and was one of his first creations. It combined functional and mechanically-based design.
